About this book

A major goal of this book is to help you become better at receiving and sharing God’s love in daily life.

Part I describes God’s kind of love (*agape*), how it differs from other kinds of love, and how it is received and shared.

Part II focuses on how each of the *12 Seeds* can be a way to receive and share God’s love.

Part III offers help in living a fulfilling life of receiving and sharing God’s love in daily life together.

This brief book is not a comprehensive discussion of God’s love, nor are the *12 Seeds* the only ways to express that love. The seeds are principles and practices for living a life of loving relationships that glorify God and bless people.
